Georex Plant Operators  
Training Centre

**Empowering Plant  
Operation  
Excellence, One  
Operator at a Time**

Specialists in plant operator training,  
machinery handling, and industry  
safety compliance.

**JANUARY INTAKE ONGOING!**

# Courses Offered

## Simulation-Based Training

Our simulation platform provides a controlled, measurable, and repeatable learning environment that enhances competence before live operation.

SIMULATOR TYPE	MACHINES COVERED
Desktop/PC-Based Simulators	Grader, Excavator, Forklift, Roller, etc.
Full-Cab Virtual Simulators	Crane, Bulldozer, Truck Loader, etc.
VR Simulators (Headset-Based)	Multi-machine modular
Augmented Reality (AR) Simulators	Loader, Backhoe, etc.
Mobile/Tablet Training Apps	Theory practice, pre-visit familiarization

COURSE	MINIMUM REQUIREMENTS
Backhoe Loader Operator	KNEC
Bulldozer Machinery Operator	KNEC
Dump Truck Machinery Operator	KNEC
Excavator Machinery Operator	KNEC
Shovel/Front-End Loader Operator	KNEC
Roller/Compacter Machinery Operator	KNEC
Grader Operator & Farm Tractor Operator	KNEC
Trailer/Lowloader Operator	KNEC

## About Us

Founded in 2025, we are a professional plant operation training provider focused on heavy machinery operation, safety compliance, and practical field solutions. Our hands-on training approach ensures learners are job-ready and industry-compliant.

## Our Mission

To equip trainees with practical and theoretical knowledge in heavy machinery operation, maintenance, and safety.

## Our Vision

To be a leading institution in producing competent and safety-conscious machinery operators who meet global industry standards.

## Core Values

01	INTEGRITY	
02	RESPECT	
03	PROFESSIONALISM
